Georg Klein, based in Berlin, lived in Munich, Rome, Los Angeles and Istanbul. With a background in composition, he has developed a multi-faceted artistic practice, in which he works with sound in combination with video, text, or photography. In his installations and interventions – in particular those in public spaces – he intensifies visual, acoustic, situational and political aspects of a space into an area of tension, the so-called "Spannungsraum", in which visitors become involved, either on an interactive or participatory basis.

Since 2013, he has been a lecturer at Berlin University of Arts (in *Sound Studies* and *General Studies / Studium Generale*) and other Universities (HfG Karlsruhe, Bilgi Istanbul, etc.)

Artistic and technical education

- 2003 Berlin University of the Arts (UdK): Education in video art (M.J.Lafontaine), Video Programming / Jitter (D.Busch) and Music Theater (R.Häusermann / M.Tsangaris)
